

# PROJECT CHARTER

---

**Project Name:**

Insights of Successful Students

**Project Sponsor:**

Tushar Topale

**Project Manager:**

Harshada Topale

**Expected Start date:**

05-08-2023

**Expected End date:**

30-08-2023

**Estimation Cost:**

NA

## Goals, Objectives, Deliverables

---

**Project Objective:**

We aim to conduct a comprehensive analysis of our student interns to get gain insights about the relationship between their academic performance, event participation, career aspiration and factors influencing their success. we have collected a dataset containing various attributes for each student.

**Business Case:**

By understanding the intricate connections between academic performance, event engagement, career aspirations, and success factors, we can make informed decisions to improve curriculum, support services, and career development initiatives.

**Goals/Matrices:**

Academic performance, Correlation, Event Engagement Impact, Career Aspirations Relations, Identification of success Factors.

### Expected Deliverables:

Comprehensive Analysis Report, Data Visualization, and Recommendations.

## Project Scope and Schedule

---

### Within Scope:

Comprehensive Analysis Report, Data Visualization, and Recommendations.

### Outside of Scope:

Deployment through Streamlit or other Web Related frameworks.

## Project Resources and Costs

---

### Project Team:

Intern

### Support Resources:

Data Analytics tools and Techniques And some references given by cloud counselage.

### Cost Allocation:

NA

## Project Stakeholders and customers

---

### Process Owner:

Harshada Topale

### Key Stakeholders:

Harshada Topale

### End Customers:

Cloud Counselage Pvt. Ltd

# Project Risks, Constraints, Assumptions

---

## Risks:

Data Inconsistencies If the data is wrong then we get it wrong results only.

## Assumptions:

Insufficient Data and Wrong Format of Data.

## Constraints:

Cannot use any premium or subscription-based visualization tools. to get better-optimized results.

# Milestones

---

## Milestone 1- Requirement Gathering:

05-08-2023

## Milestone 2- Planning:

10-08-2023

## Milestone 3- Design:

14-08-2023

## Milestone 4- Development:

18-04-2023

## Milestone 5- Testing:

25-08-2023

## Milestone 6- Deployment:

29-08-2023

## Milestone 7- Closure:

30-08-2023
